# SOHAM WANGANEKAR

+91 9076180205 ◇ Mumbai, INDIA

soham.17366@sakec.ac.in | GitHub | LinkedIn

## OBJECTIVE

Passionate developer with hands-on experience in full-stack web and mobile applications. Skilled in building data-driven systems, dashboards, and AI-integrated tools, with a strong foundation in OOP, DBMS, CN, OS, system design, performance optimization, and cross-domain problem solving. Strong focus on backend logic, UI design, and system optimization.

## EDUCATION

**Shah And Anchor Kutchhi Engineering College** — Expected 2026
Bachelor of Technology, *Computer Engineering.* — *CGPA – 9.20*

**D. G. Ruparel College of Science and Commerce** — MARCH-22
*Higher Secondary Certificate* — *Percentage – 76.33*

## SKILLS

### TECHNICAL SKILLS

- **Languages** – Java, C, Python, Solidity, MySQL, JavaScript, HTML/CSS.
- **Core Concepts** – OOPs, DBMS, CN (Computer Networks), OS (Operating Systems).
- **Frameworks** – React, React Native, NodeJS, Flutter, Android Studio.
- **Developer Tools** – Git, Visual Studio, IntelliJ, Junit, Postman.
- **Data Visualization** – Power BI, Tableau.

## PROJECTS

**Happy Body Plans (Web & Mobile App) |** *Code — HTML, CSS, React Native, Node.js, JavaScript, PHP, MySQL*

- Developed a cross-platform health and wellness app with BMI-based personalized plans.
- Implemented user authentication, Google OAuth, responsive web design, and profile management.
- Built modules for Nutrition, Workouts, Recipes, and culturally-relevant Indian diet plans with video-guided routines.
- Used MySQL for secure data handling and unified web-mobile experience.

***MythoWeave* – AI-Powered Natural Language Storytelling Engine |** *Code — Python, Flask, NLP, Hugging Face*

- Built an AI-based storytelling engine that generates structured narratives from Indian mythology using Natural Language Generation.
- Allowed parameterized inputs such as theme, character count, and story base (e.g., Mahabharata, Panchatantra).
- Integrated tokenization, custom prompts, and language models to create engaging, culturally aligned narratives.

## EXPERIENCE

**RSPY TECH (SAKEC TBI) |** Full Stack Developer Intern (February 2025 – June 2025)

Contributed to backend development of a user-focused networking platform, implementing OTA updates, a risk meter algorithm, and optimizing performance through research on navigation, image compression, and app size reduction. Also supported frontend tasks including UI debugging and integration in collaboration with the frontend team. – JavaScript, React Native

## CERTIFICATES

**Spoken Tutorial, IIT Bombay |**

- Qualified PHP and MySQL Training Certification with 75.00 percentage.
- Qualified Linux Test Certification with 83.33 percentage.

**AICTE Edu-skills (National Internship Portal) |**

- Successfully Completed 10 weeks Android Developer Virtual Internship by Google.
